

FOR IMMEDIATE RELEASE:

SEMINAR: "APPLYING INFRARED THERMOGRAPHY TO MARINE SURVEYING"

Allinson Infrared Inspection Services, Inc. is pleased to announce that John (JACK) N. Allinson, II, Accredited Marine Surveyor and Certified Infrared Thermographer will be putting on a 1 day seminar on Saturday 28 July 2007 at the Embassy Suites Jacksonville-Baymeadows in Jacksonville, Florida. Hotel details may be found at www.allinson.com/Hotel_Fact_Sheet.pdf

Cost of seminar will be competitive with rates charged for Infrared Thermography training at \$475 per person. Fee will include a copy of seminar presentation materials, refreshments for morning and afternoon breaks and buffet style lunch.

The Society of Accredited Marine Surveyors (SAMS®) has approved this seminar for 6CE credits. Enrollment will be limited to a maximum of 20 people. Fee will include a copy of seminar presentation materials, refreshments for morning and afternoon breaks and buffet style lunch.

Registration for seminar has begun and payment may be made by credit card or check. Checks should be made payable to Allinson Infrared Inspection Services, Inc. Enrollment will be closed on Friday 6 July 2007 or after twenty (20) people have registered.

The seminar will begin at 0800 and end at 1630 with time allotted for lunch and breaks.

Details of the seminar are as follows ...

This seminar will be for the following audiences ...

1. IR Thermographers who wish to know how they can use their equipment and expertise to assist surveyors.
2. Surveyors who want to know how they can apply IR to their businesses (either by doing the IR work directly or by subcontracting with a Certified Infrared Thermographer).
3. Marine Service & Repair Facilities.
4. Marine Insurance companies, adjusters, and Finance companies.

Preparation prior to seminar ...

Attendees will be asked to submit their top 10 questions regarding "IR & applying IR to Marine Surveying" prior to the seminar. Questions that are received at least 2 weeks prior to the seminar will be reviewed and discussed as the last topic of the seminar.

Discussion topics ...

1. Fundamentals of ... IR how it is being used in other industries ... and how to apply it to Marine Surveying.
2. How to get started ... business thoughts, planning and training for success.
3. IR imaging ... cameras and detectors
4. What kind of equipment you should consider (e.g. sensitivity versus resolution) for your application.
5. What kind of software should you consider?
6. How to prepare for inspection day.
7. Interpreting results.
8. Presenting results.
9. Review of attendee questions received prior to the seminar.
10. Wrap up and final questions.

About Mr. Allinson ...

"JACK" has been successful using Infrared Thermography as an adjunct to his Marine Surveying and Consulting business since 2003 and he routinely presents at internationally recognized Infrared Thermography conferences.

Details regarding his services can be reviewed at www.allinson.com
